

DINO EGG HUNT

from **adaptiVLE**

Cut-out the 8 Dino Egg markers below and place them in different locations around your home, garden or other secure area. This is your Dino Zone!

Players should then visit <https://coursecontent.co.uk/ar/> on their smart phone.

They will need to give the website permission to use their smart phone's camera.

Players then use the phone's camera to explore the designated Dino Zone and hunt for the Dino Egg markers.

When the camera picks up a marker, it will reveal a surprise!
